SKILLS

- **Languages:** C++, JavaScript, C, Java
- **Frameworks:** HTML, CSS, React, Tailwind, Node.js
- **Tools / Platforms:** Postman, Mongoose, MongoDB Atlas, VS code, Git, GitHub
- **Soft Skills:** Leadership, Collaboration, Time Management, Punctuality

WORK TRAINING

Core and Java Grade(O) 90%+

Jun 2024 - Jul 2024

- Gained hands-on experience in building applications using Core and Advanced Java concepts.
- Worked with Object-Oriented Programming (OOP), Collections Framework, multithreading, exception handling, JDBC, and other core Java features.
- Developed and consumed RESTful APIs using Java (Servlets & Spring Boot) and integrated backend workflows.
- Implemented file handling, database connectivity, and application deployment using Java.
- Improved skills in problem-solving, debugging, version control (Git), and writing efficient Java code following best practices.

PROJECTS

Job-Hunt React Application

Dec 2024 – Jan 2025

- **Project Overview:** Developed a job website using React where users can find jobs, apply, and read tech and career blogs.
- **UI/UX:** Developed a user-friendly, responsive interface with an intuitive design, ensuring smooth navigation and accessibility across all devices.
- **Special Feature:** Integrated a blog section providing valuable insights on technology and career advice, enhancing user engagement.
- **Technology:** Built using React.js with Zustand for state management, ensuring a fast and dynamic user experience.

Tech Stack: React.js

Sudoku-Solver

Aug 2024 – Sep 2024

- **Project Overview:** Created a Sudoku Solver using HTML, CSS, and JavaScript to practice and demonstrate the backtracking algorithm.
- **Algorithm:** Implemented the backtracking algorithm to solve Sudoku puzzles efficiently with step-by-step recursive logic.
- **UI/UX:** Designed an interactive grid-based interface with HTML and CSS for easy puzzle input and visual feedback.
- **Performance & Validation:** Developed robust input validation and automated solution verification mechanisms to ensure that generated Sudoku solutions satisfy all row, column, and 3x3 sub-grid constraints, improving the reliability and accuracy of the solver across different puzzle complexities.

Tech Stack: Data Structure and Algorithms (Backtracking)

Portfolio Website

Jul 2025 – Aug 2025

- Designed and developed a modern and visually appealing portfolio website to showcase my projects, technical skills, and experience effectively.
- Built the frontend using React JS with component-based architecture, ensuring clean and maintainable code.
- Followed industry-standard UI/UX principles such as visual hierarchy, modern typography, and clean layout.
- **Responsive Design & Performance:** Implemented a fully responsive design optimized for desktops, tablets, and mobile devices, while leveraging React best practices and efficient component rendering techniques to deliver a fast, seamless, and user-friendly browsing experience.

Tech Stack: React.js | Tailwind CSS | JavaScript

CERTIFICATIONS

• Cloud Computing - NPTEL	Feb 2026 - May 2026
• Data Analyst - SAP Analytics Cloud	Jan 2026 - Mar 2026
• Server-side JavaScript with Node.js	Jan 2024 - Feb 2024
• Core and Advance Java	Jun 2024 - Jul 2024
• Programming in C++: A Hands-on Introduction	Dec 2023 - Jan 2024

EDUCATION

• Lovely Professional University Bachelor of Technology - Computer Science and Engineering CGPA: 6.63	Jalandhar, Punjab Aug 2022 - Aug 2026
• BDM Sr Sec High School Intermediate-Science: Percentage: 76%	Dehradun, Uttarakhand Apr 2020 - Mar 2022
• SRT School Intermediate-Science: Percentage: 67%	Muzaffarpur, Bihar Apr 2019 - Mar 2020
